EXPERIENCE

Jr. Site Reliability Engineer (DevOps)

March 2025 - Present

eTap Inc.

Makati City, Manila

- Managed and optimized AWS infrastructure (EC2, S3, EBS, DynamoDB, VPC) across environments, including rightsizing instances and cleaning up unused resources to cut monthly cloud spend by 30%
- Maintained GitHub Actions CI/CD pipelines that decreased AWS Fargate application deployment time from 30 minutes to 5 minutes.
- Participated in a 24/7 on-call rotation, performing root-cause analysis and incident response; identified and resolved a recurring incident by 10%.s
- Set up monitoring and alerting with CloudWatch and Grafana, giving the SRE team earlier visibility into CPU, Memory, and Disk-usage thresholds before they triggered failures.
- Wrote Terraform configurations to replace manually provisioned AWS resources, cutting environment setup time from 1 day to under an hour and eliminating configuration drift between environments.
- Automated recurring operational tasks (log rotation, backups, scheduled report) with Bash scripts and cron jobs, reducing manual effort by roughly 2 hours on Linux servers.

IT Analyst

June 2024 - January 2025

CGIC

San Fernando, Pampanga

- Delivered technical support to 100 end-users experiencing issues with the Core Insurance System, ensuring continuation of critical business operations.
- Optimized PL/SQL scripts, reducing batch processing time by 35% and improving report generation efficiency for business operations.
- Developed a web-based Inventory Management System using HTML, CSS, and PHP, increasing inventory tracking accuracy by 25% and reducing manual reporting efforts.
- Created advanced SQL queries and reports, enabling stakeholders to access critical business insights 50% faster and support strategic decision-making.

EDUCATION

B.S. in Computer Engineering

June 2015 - December 2020

Samar State University

Catbalogan City, Samar

CERTIFICATIONS

AWS Certified Solutions Architect - Associate | [Credentials](#)

AWS Certified Developer – Associate | [Credentials](#)

AWS Cloud Quest: Cloud Practitioner | [Credentials](#)

SKILLS

Programming Languages: Python, Bash, SQL, JavaScript, HTML, CSS

Cloud: Amazon Web Services (AWS) – EC2, S3, VPC, IAM, CloudWatch, SNS, Lambda, RDS, Route53, ECS, Bedrock

Other Tools: Terraform, Docker, Git, GitHub Actions, Grafana, Squadcast, TCP/IP, SSH

PROJECTS

Portfolio Website (Amazon S3, CloudFront, DynamoDB, Route53, ACM, namecheap, GitHub Actions) | [View](#)

Built a secure, scalable static website served globally through CloudFront for low-latency delivery, with a serverless visitor counter backed by DynamoDB and GitHub Actions CI/CD Pipeline.

AWS ECS Fargate CI/CD (GitHub Actions, IAM, OIDC, Fargate) | [View](#)

CI/CD pipeline for AWS Fargate using GitHub Actions, with keyless authentication via IAM and OIDC federation to eliminate long-lived credentials.
