SKILLS

Cloud: AWS (EC2, VPC, S3, IAM, RDS, Lambda, ECS, CloudWatch, ELB, Route53, DynamoDB, WAF, Cost Explorer)

Networking: SSH, TCP/IP, HTTP(S), DNS, Load Balancing, VPN

Other Tools: Terraform, Docker, Python, Bash, GitHub Actions, Git, Grafana, Ubuntu Linux, SQL, HTML, CSS, JavaScript

WORK EXPERIENCE

Jr. Site Reliability Engineer (DevOps)

March 2025 - Present

eTap Inc.

Makati City, Manila

- Managed and optimized **AWS infrastructure (EC2, S3, RDS, DynamoDB, VPC, EBS)** to ensure scalability, security, and cost efficiency.
- Automated routine tasks using **Bash scripts and cron jobs** to reduce manual workload on Linux environment.
- Designed and enhanced **CI/CD pipelines using GitHub Actions** improving deployment speed and reliability.
- Implemented monitoring and alerting using **CloudWatch and Grafana for proactive incident detection** across SRE team.
- Wrote **Terraform configurations** to replace manually provisioned AWS resources to reduced environment setup.
- Collaborate with cross-functional teams to **maintain secure, compliant, and highly available** cloud environment.
- Performed 24/7 on call rotation, conducting root cause analysis and incident response**, resolving recurring incidents and strengthening platform stability.
- Created **AWS architecture diagrams across multiple projects**, enabling development teams understand and visualize system components and integration

IT Analyst

June 2024 - January 2025

CGIC

San Fernando, Pampanga

- Delivered technical support to 100 end-users experiencing issues with the Core Insurance System, **ensuring continuation of critical business operations**.
- Optimized PL/SQL scripts** to support system workflows, automate data processing, and provide reporting for business operations.
- Developed an inventory management system using HTML, CSS, and PHP for tracking and reporting, resulting in a **increase in operational efficiency**.
- Designed complex **SQL queries** for data extraction, reporting, and analysis, enabling data-driven decisions.

EDUCATION

B.S. in Computer Engineering

June 2015 - December 2020

Samar State University

Catbalogan City, Samar

CERTIFICATIONS

AWS Certified Solutions Architect - Associate | [Credentials](#)

AWS Certified Developer – Associate | [Credentials](#)

PROJECTS

Static website on AWS S3 with CloudFront | [View](#)

Deployed a static website on AWS S3 with Amazon CloudFront enabling secure, scalable, and low-latency website access.

CI/CD Pipeline for AWS Fargate with GitHub Actions | [View](#)

Developed a CI/CD pipeline for containerized applications using GitHub Actions through secure GitHub OIDC authentication.

IaC: Terraform State Management | [View](#)

Designed a robust Terraform state management strategy using remote backends and locking mechanisms.
