## PROFESSIONAL EXPERIENCE

### Jr. Site Reliability Engineer (DevOps)

eTap Inc.

March 2025 - Present

*Makati City, Manila*

- Managed and optimized AWS infrastructure (EC2, S3, EBS, DynamoDB, VPC) across environments, including rightsizing instances and cleaning up unused resources to cut monthly cloud spend by 30%.
- Participated in a 24/7 on-call rotation, performing root-cause analysis and incident response; identified and resolved a recurring incident by 10%.
- Set up monitoring and alerting with CloudWatch and Grafana, giving the SRE team earlier visibility into CPU, Memory, and Disk-usage thresholds before they triggered failures.
- Wrote Terraform configurations to replace manually provisioned AWS resources, cutting environment setup time from 1 day to under an hour and eliminating configuration drift between environments.
- Automated recurring operational tasks (log rotation, backups, scheduled report) with Bash scripts and cron jobs, - reducing manual effort by roughly 2 hours on Linux servers.
- Maintained GitHub Actions CI/CD pipelines that decreased AWS Fargate application deployment time from 30 minutes to 5 minutes.

### IT Analyst

CGIC

June 2024 - January 2025

*San Fernando, Pampanga*

- Delivered technical support to 100 end-users experiencing issues with the Core Insurance System, ensuring continuation of critical business operations.
- Optimized PL/SQL scripts to support system workflows, automate data processing, and provide reporting for business operations.
- Developed an inventory management system using HTML, CSS, and PHP for tracking and reporting, resulting in a increase in operational efficiency.
- Designed complex SQL queries for data extraction, reporting, and analysis, enabling data-driven decisions.

## EDUCATION

### B.S. in Computer Engineering

Samar State University

June 2015 - December 2020

*Catbalogan City, Samar*

## CERTIFICATIONS

AWS Certified Solutions Architect - Associate | [Credentials](#)

AWS Certified Developer – Associate | [Credentials](#)

AWS Cloud Quest: Cloud Practitioner | [Credentials](#)

## SKILLS

**Programming Languages:** Python, Bash, SQL, JavaScript, HTML, CSS

**Cloud:** Amazon Web Services (AWS) – EC2, S3, VPC, IAM, CloudWatch, SNS, Lambda, RDS, Route53, ECS, Bedrock

**Other Tools:** Terraform, Docker, Git, GitHub Actions, Grafana, Squadcast, TCP/IP, SSH

## PROJECTS

**Portfolio Website** (*Amazon S3, CloudFront, DynamoDB, Route53, ACM, namecheap*) | [View](#)

Built a secure, scalable static website served globally through CloudFront for low-latency delivery, with a serverless visitor counter backed by DynamoDB.

**AWS ECS Fargate CI/CD** (*GitHub Actions, IAM, OIDC, Fargate*) | [View](#)

CI/CD pipeline for AWS Fargate using GitHub Actions, with keyless authentication via IAM and OIDC federation to eliminate long-lived credentials.
